

How to find the main practice at Paton and Lee, Hoo Hall, Rivenhall, Witham.

Directions from the A12

Take the turning off the A12 signed to "Great Braxted" and "Silver End". This is the Rivenhall End exit.

Coming from the Ipswich direction on the A12 the turning is just after a BP garage and the Rivenhall Hotel on the left. At the T junction turn left and follow the road back underneath the A12.

Coming from the London Direction the slip turning is quite short and is just after the disused Fox Pub. At the T junction turn left.

Then proceed as below:-

Follow the road under a railway bridge, around a left and then right hand bend past some houses on the right hand side. Within a further 150yds you will see a post and rail fence on your right hand side and some cottages on the left. Directly opposite the cottages, before a large pale-green house with pale green posts outside it, turn right down the drive, signed to Hoo Hall. If you are bringing a horse, follow the drive to the right after the hump backed bridge taking you round to the back of the barns. The surgery is within the black weather-boarded barns. If you are coming by car proceed straight on to the office at the front of the buildings.
